NEW BANK QUARTERS.

National Bank of the Republic Has Leased the White House.

Will Expend Fiftann Thousand Dollars in a Copper New Front and Other Improvements-Real Estate Transfers.

The National Bank of the Republic has effected a lease with the owners of the Walte nouse block of the entire business frontage on Second South street and will occupy the same semetime in May.

The lease covers a period of ten years, and silpuintes thus the new tenants shall have possession May 2. The price agreed upon a rental of \$550 per month for the entire term of the lease. The bank secures the rooms at present occupied by the Rio Grande Western's city ticket office and the rooms west, including the entire Second South street frontage of the White house | 10

South street frontage of the White house block. Among the improvements to be made are a new iron and glass plate front, new Mosaic floors and such other refitting, fartures and furniture as will convert the roome into first class modern banking offices that will rival if not excel the best to be seen in this city.

The Bank of the Hepublic in obtaining this site for its future operations, secures the best corner in the heart of the business control the city. Its Main street frontage is on the side of the street which is most frequented by shopping pedestrians and the Second South frontage is on the side of the street which is most frequented by shopping pedestrians and the Second South frontage is on the side of the street which is most frequented by shopping pedestrians and has the advantage of the afternoon shade. The improvement will brighten up an old and rather duty corner, converting it into a scene of busing selling, activity, attractive to and rather dusty occase, converting it into a scene of bushing activity, attractive to the eye ard inviting to the financial heads who, since the many splendid banking rooms have been opened, have grown to appreciate the ateraments of manogeny counters and copper-plate ornaments which now are a necessity of modern money changers.

QUESTIONS.

ANSWERS.

It is a very simple matter. We have arranged with the Publishers of the Americanized Encyclopesdia Britannica to take a large quantity of this work off their hands thus securing a remarkably low price as well as singularly easy terms. We propose to give the whole advantage of his transaction to our subscribers, and offer to deliver the epitre set of the Americanness Encyclopedia Britannics on payment of \$5.00 and your signing a contract to pay \$2.50 a mouth for 10 mouths, \$50 in all. This offer is made only in connection with a year's subscription to this paper at regular subscription rates. paper at regular subscription rates.

Why, that is only about eight .

Just so. But you see, in these days of steam and electricity, and labor-saving machinery, a great deal can be done for eight cents a day, en-posintly when twenty or thirty thousand people of the property of the state of the state of the state of the laboratory at the state of Well, that may be so. But see ers. What is this Americanised overlappens the Americanised You can be thankful that you didn't accept his offer. If you'd done so and seen the Americanized edition afterward you would have felt like kicking yourself. I suppose your canvassing friend told you that the Encyclopedia Britannica was simply the most complete work of its kind ever published?

Recyclopedinyosproposetrodisci, anyhow? I have head of it be-fore. Now if it was the original Encyclopedia Britannies youwere onering I should sive young sub-scription in a hinry. There's a fellow convening me for it now, and he wants sixty dollars for the set, three times what you ask for your Encyclopedia. That's exactly what he said, the very words. He said, too, that it was accepted as the standard work of reference by all English speak-ing actualism and in every English and American History.

So it is; he was right enough so far. It's a manumental work and cost more than a million dellars to get up. But there are spots on the sun, you know, and there are defects even in the Encyclopedia Britannica. Did he mention to you that you might look for Ulysses S. Grant in it and not find a word about him?

Why, no, and I don't believe it's so, either. General Grant was as well known in Hingland as he was in this country.

Of course he was, or pretty nearly so. But the Encyclopedin Britannica doesn't mention him for all that. And it doesn't say a word about Sherman either, nor about Sheridan, nor Hancock, nor Blaine, nor Cleveland, nor Harri-son, nor Harriet Bescher Stowe, nor Julia Ward Howe, nor Elizabath Stuart Phelps, nor Charles Stewart Parnell, nor Bismarck, nor Jeff Davis, Oh, yes indeed. It contains some of the most On, yes inceed. It contains some of the most magnificent biographies that ever were written.

—Macaulay's life of Dr. Johnson, for example. But you see what they called "the plan of the work" excluded all mention of living characters. They wanted to see how a man would turn out first before they made room for his life in their volumes. Hold on, hold on! Just tell me in one word if it ease anything about anybody?

So. Well, I certainly don't want an Encyclopedia that will not tell manaything about the great men of the world until after they are doad. Why, it's just anothy while they are already as all the that I want to know about them most. But see hers. Wantyon say doesn't hold together. Why ise't there may thing as significant

Ha! Ha! Ha! Excuse me, but I can't help laughing. I suppose your canvesser told you his Encyclopedia was a brand new book, just

his life in their volumes.

Why, of course he did. He said it was only published last year.

Only published by IHS publishers he meant. But if he had spoken the trath about the matter he would have told you that the first volume of the latest edition of the Encyclopedia Britannica was issued lifteen years ago, and that the greater part of it was compiled at that date. So you see they didn't get General Grant in it after all. That depends on the kind of book you want. Let me ask you a question or two. You live bere in the United States, don't you?

Dear ins, what a world this is, to be sure. And is there anything clea the matter with the book?

Yes, I thought so. Now tell me, about which do you want the most detailed information, an American city or an English town? An Amer-ican statesman or an English statesman?

and a few generalities of that kind.

Just so. But, you see, the Encyclopedia Britannica wasn't compiled for the use of men like you. It was put together to be used by Englishmen in England. And, you see, they want the eract opposite of what you do and the Encyclopedia Entannion, very properly, gives it to them. It fills pages with the account of some ineignificant English berough or county that you may never want to know anything about which was a seed to the end of the en about whitever, and gives a half donen lines to some State or city here that you want the fullest particulars of, but about which an Englishman cares just nothing at all.

Iso, I so. Wansed an Ameri-manised edi — and by jiminy! That's the very thing you are ad-vertising. Am I right?

Right as a trivet, whatever that may be—I never any one that I know of. Sut you're just exactly right, all the same. It's the AMERI-CANIZED Encyclopashia Britannica that we propose to put in every home in the West. The long-winded stateles on petty British subjects have been cut down to the same length that would have been given them had they been French or German subjects, and the articles on matters of American interest have been all rematters of American Interest have been all re-written and treated just as exhaustively as they would have been in the original work had they been specially interesting to Englishmen. Well, rather. One of the best and most com-

I see, I see. Why it's a perfectly splended does. The enty wonder is that nebody thought of it before. And I suppose there a hisporphy of General Grant in your edition?

plots ever written. And there are four thou-sand new biographies besides. In fact, the work contains the life of every distinguished man or woman, American or foreign, now living, or who has died since the Encyclopædia Bri-tannica was compiled. Oh, yes, a few. The entire work has been revised down to the present year for one thing. Then an entirely new set of maps has been added, including a separate map for each State.

Upon my word, Pm glad I told that converse to call conin. If I hadn't mid you I should have been intelysted. On by the way, how large a work is this of yours?

Ten good sized volumes, excellently bound. About 7,000 pages sltogether, or 14,000 wide columns, equal to about 110 ordinary 12mo
